### **The Master Mind**

The Master Mind is he who doesn't let anybody know what he does, not even what he contemplates and nobody is aware of his intentions. It's only after he executes and exhibits, do people come to know of them. Whatever work he undertakes, factors like fear, desire, possession, loss, etc., don't divert him from his path. He is, verily, the genuine Master Mind.,

*Vidura's Ethical Code 1:18, 19*

**D**o you want to become a Master Mind?

Do you want to become a marvellous person in your family?

Do you want to achieve brilliant success in your chosen area of activity?

Do you want to know the secrets of those who succeeded?

Do you want to motivate yourself similarly?

Do you want to succeed? Are you really serious?

Then, this book is meant for you.

This book will give you the inspiration, clear your illusions, remove the cob-webs of doubt and despair, give you helpful and motivating hints, make you understand how to become a “Master Mind”, achieve extraordinary success, so that you yourself can become a *Role Model* for others and in turn, motivate them to become “Master Minds”.

Yes! All this is possible. Proceed ahead with confidence. You might say that earlier you tried, failed in your attempts, got discouraged and left it at that. Or, may be, you are still struggling and not able to achieve a position of eminence. Did you ever seriously analyse as to

Why you have not been able to achieve it so far?

This is an important question. This requires careful analysis. Honestly, did you give your best?

Usually, you would not fail, if you gave your undivided attention, planned carefully, prepared fully and implemented diligently.

What was the level of your DESIRE?

The answer is very simple.

How intense and how strong and how serious? Be Honest. Usually, you were lacking the ‘Desire,’ **to the extent necessary.**

‘Where is the question of not having the desire?’ You would question.

“Sorry, you do have the ‘Desire’ but not strong enough. It is lacking something in its intensity.”

To put it in other words, You don’t have the ‘Burning desire’ or ‘Passion’ for it.

You don’t have what is called the ‘Killer instinct’

In short, you don’t have the ‘Fire’ inside to force you to achieve.

It’s like the fuel in a rocket.

As you know, however sophisticated a rocket is, it can’t work unless there is ‘fuel’ and that fuel is ignited.

There are many fuel-bunkers with that 'fuel' in this book, waiting for you.

Many people made use of this fuel in the past.

Eg.

- ☛ Those who have made 400 runs in a day in cricket when it was felt that making even 300 is too high.
- ☛ Those who have broken the Olympic records in running, which remained unchallenged for several years.
- ☛ Edison, who invented 1300 things in spite of obstacles.
- ☛ Those who actually landed on the Moon, when it was considered impossible.
- ☛ Pythagoras, who gave us mathematical theories when modern facilities were lacking.
- ☛ The Indian scholars, who proved that zero is also a numerical.
- ☛ Leonardo de Vinci, who gained expertise in ten different arts.
- ☛ Amitabh Bachchan, who reached the summit after having been condemned in the beginning as an ugly six-footer.
- ☛ Mahatma Gandhi, who achieved freedom for India without waging a war.
- ☛ Martin Luther King, who aroused unexpected inspiration among the nationals of Black race.
- ☛ Abraham Lincoln, who was born in a poor family and rose to the position of the President of America.
- ☛ Abdul Kalam, who was born as a fisherman's son and became the President of India.
- ☛ Winston Churchill, who won over stammering and became an eloquent speaker.
- ☛ Dr. A.S. Rao, who continued his studies on others' charity, became a great scientist and founded the E.C.I.L.
